Weddings-by-the-Hour Information & Rates

WEDDINGS-BY-THE-HOUR Hourly coverage (WBTH) is a good option for couples who like to keep it simple and not be 'locked' into a package structure with albums and extra content. Everything is flexible allowing you control over how much coverage time you select. You can add extra time on your wedding day if needed. Whatever works for you. With WBTH, you own all your edited pictures and have complete freedom post-wedding to print and share anyway you wish with no restrictions. WBTH is a perfect choice as you will save money without compromising quality or picture selection.

NO HIDDEN COSTS OR EXTRA FEES We are open and transparent with pricing. There are no additional fees with any coverage time selected. After your wedding, you will receive all your edited pictures on a USB flash drive along with a second back up flash drive. Online viewing is also included for at least five years. **All rates include tax and there are no travel fees unless otherwise indicated.**

WBTH IS FLEXIBLE You decide what coverage time you would like and can even 'go-with-the-flow' and add extra time on your wedding day if needed. With WBTH, you have options post-wedding to order enlargements and various albums a-la-carte at discounted rates. You will have my involvement in all your picture editing post-wedding.

You will receive approximately 150 edited pictures per hour of coverage time with WBTH. This is the same number of edited pictures (per hour of coverage time) included with any of the four album packages.
